

SERIES 6000 HB-LED

ARTICULATED COVE LIGHTING

INTEGRAL 120V POWER SUPPLIES

Patents Pending

- **No Factory in the Field™**
Fully factory assembled in eight-foot lengths
- **Feed 120V directly into fixtures**
One feed point feeds in excess of 120 feet of cove lighting
- **Delivers >400 lm/ft**
Two aiming angles available – vertical and 20°
- **Delivers >50 lm/watt efficacy**
8 watts per foot
- **90° bends and 12" radius**
Will easily conform to straight and curved layouts
- **Sustainably designed**
Low carbon footprint – no mercury or hazardous waste
- **120V standard**
Consult factory for dimming and 240/277V options.
- **Installs in a fraction of the time**
Minimum number of 120V feeds and connections
- **Two temperatures – 3200°K, 4200°K, >82 CRI**
Tailor the color temperature to your environment.
Consult factory for other color temperatures.
- **Simple to specify**
No external drivers or power supplies.
Simplifies load calculations.
- **Three year warranty**
Complies with IESNA LM-79 standards
